[* For all Owners whose project includes one or two schools and is estimated to have a Total Project Budget(s) under $5 million, the fee to provide Owner’s Project Manager services as defined in the OPM Contract – Accelerated Repair Program for the Schematic Design Phase will be an amount not to exceed $15,000 for an estimated duration of six months. For all Owners whose project includes three or more schools and is estimated to have Total Project Budgets under $5 million, the fee to provide for the Schematic Design Phase will be an amount not-to-exceed $20,000 for an estimated duration of six months. For all other Phases beyond Schematic Design, the District will be responsible for negotiating the fee for services for the remainder of the project, dependent upon an evaluation of the level of effort required, job complexity, specialized knowledge required, estimated construction cost, comparison with past project fees, and other considerations. As construction cost is but one of several factors, a final construction figure in excess of the initial construction estimate will not, in and of itself, constitute a justification for an increased Owner’s Project Manager fee.

For projects with an estimated Total Project Budget greater than $5 million, the Owner will negotiate the fee for services for every Phase dependent upon an evaluation of the level of effort required, job complexity, specialized knowledge required, estimated construction cost, comparison with past project fees, and other considerations. As construction cost is but one of several factors, a final construction figure in excess of the initial construction estimate will not, in and of itself, constitute a justification for an increased Owner’s Project Manager fee.

The MSBA’s level of participation in the OPM fee amount shall be determined by the MSBA and is subject to final review and audit by the MSBA.]
