Who We Are

- A Horace Mann “in-district” Charter School located in Brighton; serving ~500 students in grades 6-12 from every neighborhood.

- Boston’s only school focused on sustainability and preparing the next generation of leaders for success in college and green careers; Ch. 74 CTE program in Environmental Science; 2019 U.S. & Mass. Green Ribbon Schools Award Winner.

- Founded in 2011 as a ‘re-start’ of a struggling BPS high school in South Boston; expanded to include middle grades in 2014.

- Green was a good idea in 2007 (our first design meeting). Now it is urgent and existential. We need a diverse and skilled next generation of leaders to help solve our sustainability challenges, confront the climate crisis, and reimagine systems.
Mission Statement

Boston Green Academy welcomes diverse students of all abilities, educates and empowers them to succeed in college and career, and prepares them to lead in the sustainability of our community and world.
